

RaceDroid

regenerated to give the players a complete challenging gaming

The all new Android game application, RaceDroid, gives you a dream-like experience from tomorrow's mobile games. RaceDroid gives you a unique single and double player gaming option. Compete your friends with RaceDroid over an

absolute random map and see who can experience. The helicopter has to go reach the end of the cave faster. Increase and decrease your speed with the accelerator and breaks, but watch out for the gravity and the cave, each time you hit floor or the ceiling, it will be counted!

The game is about a helicopter that has to go through a cave as soon as possible. The cave is full of ups and downs and each time the cave is

from one side to the other to reach the finish line. Each time you hit the cave it will be counted on your final result! On the fascinating two player mode, you get to play a realtime game with your friends on two different Android capable mobile phones.

With RaceDroid have the most exciting mobile game experience with your friends like never before.
