Application

- Bus Route represent time schedule and routes of Lappeenranta bus transportation based on entered source and destination .
- Time and date of departure or arrival can be set.

The screenshot shows a mobile application interface with a dark blue background. At the top, the title 'Bus Route' is displayed in a light blue font. Below the title, there are three input fields: 'Source', 'Destination', and 'Departure'. The 'Source' field is empty. The 'Destination' field contains the text '16:30'. The 'Departure' field contains the date '02-28-2014'. Below these fields, there is a 'Search' button. The interface is simple and functional, designed for entering bus route information.
