17 - 21 October 2011
Lappeenranta University of Technology

Mihai Iusan
Camilo Cifuentes
Valtteri Kekki

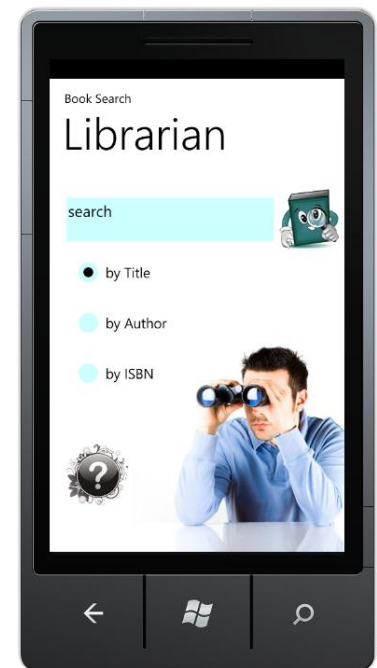

Idea

- Help people to find books that they need
- Centralized searching in multiple libraries
- Show the book position on the map

Motivation

- Finding a book can be a headache
- The book might be closer than you think
- Time consuming search over internet for the book

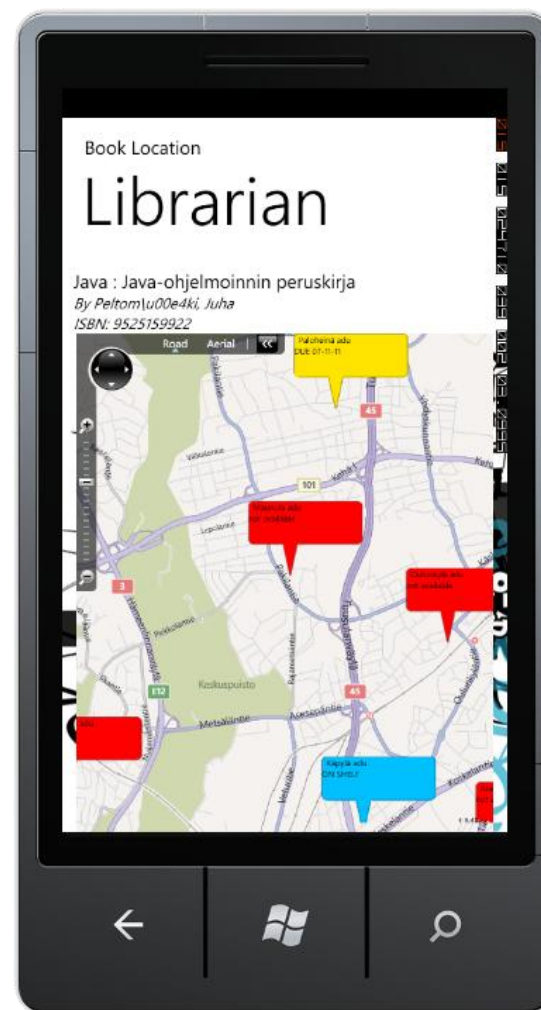

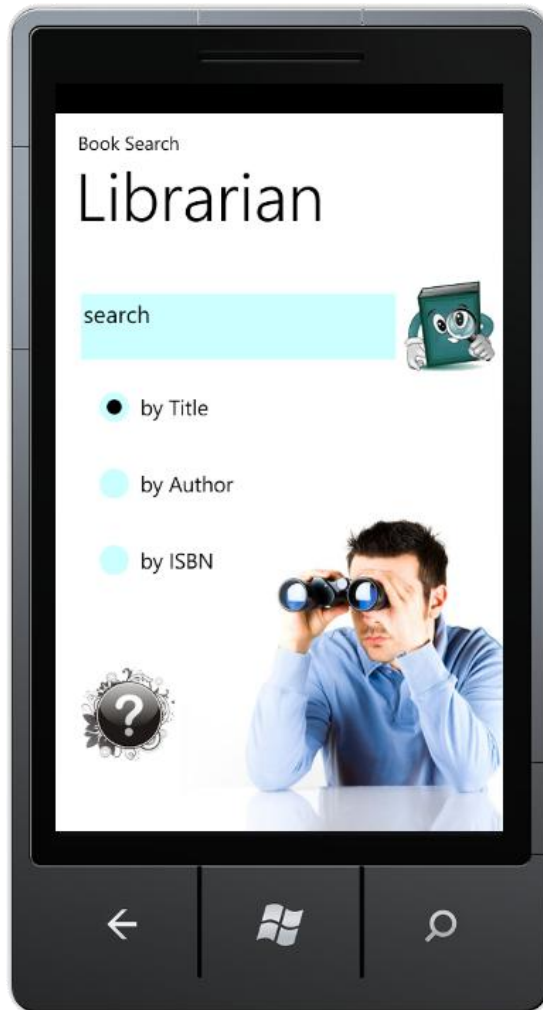

Solution

- Search multiple libraries simultaneously
- Use Open Data
- Book position on the map
- Show book status

Demo

Technologies
